<b>2</b>	<p><b>Briefly outline how your organization disseminates information on and promotes the work of the Organization to its membership and/or beyond</b></p> <p>The Clean Shipping Coalition promotes its activities and the activities of its members and the IMO on its website (<a href="http://www.cleanshipping.org/">http://www.cleanshipping.org/</a>), via press work, publications, and at events organised by its member organisations. Since CSC is a membership organisation and its members are other environmental organisations these members (<a href="http://www.cleanshipping.org/members/">http://www.cleanshipping.org/members/</a>) also have their own web sites and do their own outreach and communications guaranteeing a very extensive reach.</p> <p>In support of their work at IMO CSC members routinely commission research and analysis and this is made available to the general public and of course to IMO member states via submission to one or other of the IMO committees. Recent examples of this kind of work can be found in documents MEPC68/INF.25, MEPC 69/INF.29 and MEPC70/INF.36.</p>
